

## Installing Dr. Brown's Edit Layers in ACR

Please note this script can only be used with Adobe Photoshop CS5.

### Automated installation on Mac or Windows®:

1. Close the Adobe Photoshop CS5 application if it is currently running.
2. Open the Adobe Extension Manager CS5 that was installed with Photoshop.
3. Select the install button at the top of the Extension Manger window.
4. Locate, and select, the file named Dr. Brown's Edit Layers in ACR.zxp
5. Follow the instructions and install the script.
6. If you have any installation issues, please refer to the manual installation instructions.

In some cases the Adobe Extension Manager CS5 will not correctly install all the components of Dr. Brown's Edit Layers in ACR, into the correct locations.

If you are experiencing problems after running the installer then use this information to help with a manual installation. Once you have installed these files you can access Dr. Brown's Edit Layers in ACR from the File menu under Scripts.

You will need to restart Adobe Photoshop CS5 after installing these files. Also, be sure that you are in Administrator Mode when installing, or coping this script. If you are not in Administrator Mode, some files will not be copied correctly.
